

ONLINE & REGIONAL COURSE

# DATA SCIENCE FOR MANAGERS

A foundation in the field of data science for managers and senior business leaders of data-driven teams.

## COURSE OVERVIEW

Data Science is rapidly emerging as one of the most sought-after fields in industry today. In an oft-cited study by McKinsey & Co., the United States faces a shortage of 1.5 million managers and analysts with the skills to understand and make decisions based on the analysis of big data. GTK Cyber provides training aimed at stakeholders at all corporate levels.

### ONCE YOU'VE COMPLETED THIS COURSE YOU HAVE THE SKILLS TO:

Read data in a variety of common formats then write scripts to analyze and visualize that data.

### COURSE OBJECTIVES

- How to identify problems which can be solved using data science techniques
- How to hire and retain a qualified data science team
- Manage a data science project
- Build an infrastructure that can support data science project
